Re: letter of Intent

Dear Mr Fred Arment,

I am writing to you on behalf of *Centre d'Information et Mobilisation Sociale* (CIMS) regarding the undersigned as independent citizens of Rwanda, hereby acknowledge our intention to help build a City of Peace.

As you know, CIMS as social peace and Justice Initiative has been active in conducting research and campaigns into the land reform and raising awareness about the new land law, in order to reduce the potential for disputes over land. We are therefore interested in continuing our support for the people in conjunction with the City of peace in our area.

Your proposal to help build a City of Peace could contribute to CIMS work in several ways. First, through collaboration with CIMS staff and volunteers during fieldwork, the research could represent an opportunity for shared learning in terms of research methodologies. Second, CIMS would like to invite you to share some of the preliminary results of your activities, programs, and strategies through seminars with CIMS members and other interested people. Third, through discussions with CIMS members, your mission, vision, goals might play a role in the development of the CIMS research agenda and its ongoing search for donor funding.

Yours sincerely,

Damien MWAMBAR I
Program Manager

Fidele Philos NSENGIMANA
Assistant Program Manager
