Address; PMA Vyaparam Bhavan, Kochi

Title of the program: Peace Readership Library

To Ensure access to peacebuilding books to various community members and Rotarians of the club, we would like to identify the Thiruvaniyoor Grama Panchayat as the City of Peace. The library will contribute for peace building.

Challenges: We do not have space and budget limitations for the community to access. We do not have own building. We are working in rented building only. We would like to share our books to ICP peacemaker leaders and the larger community. We would like build accessibility to local, regional and international peace distributing and inculcating books. We are trying to get grants for the same

First Project Steps

1. Identify the space and area
2. Identify the partner
3. Partner with different business community who can contribute
4. Select books through a team of members
5. Fix and set up the library
6. Select reasonable hours of operation

Who the project impacts

The project will impact the peace leadership, community leaders and organizaers, and all Rotarians. This will initiate a great resource for peace building. The peace education will be shared through the books and it will change the future of the community.

Follow up steps

We will collect maximum efforts to ensure that the library is functioning properly.
