

INTERNATIONAL
CITIES OF PEACE

1000 Cities of Peace by Year 2025

International Cities of Peace is working to ensure everyone's right to safety, prosperity, and quality of life -- the practical consensus values that can change the lives of billions and take global peace from dream to reality.

Here is our challenge, our solution, and how you can help achieve global peace.

Our Challenge

The practical and achievable vision of International Cities of Peace **is to establish 1000 Cities of Peace** by year 2025. To achieve this aggressive goal will require **more capacity in terms of web-based automation technology** to facilitate hundreds of municipalities in applying and completing the process. Currently, that process is 100% handled by volunteers and each City of Peace application takes **from twenty to sixty back-and-forth emails!** Yet, there is a solution.

The Solution

The time-intensive and limiting manual application process can be achieved in less than five emails **through easy-to-use automation technology** that enables leaders to apply and complete their individual web page. A redesign of our website to add this critical software application can be online by end of this year.

We appeal to you to support this effort through donations, gifts, and grants.

Only together can we achieve our mutual goal of a more peaceful world.

Agreed: No city is 100% a City of Peace.
We all endeavor toward that ideal.

International Cities of Peace is a **positive, non-political, non-divisive platform to inspire "in-situ" leaders** to create bridges to all parts of the community for mutual benefit.

Nearly 400 municipalities in over 70 countries on all 6 continents are **localizing a culture of peace to prevent, resolve, manage, and transform the ravages of violence.**

WHY International Cities of Peace?

Vision: To ensure everyone's right to safety, prosperity, and quality of life, the consensus values of global peace.

WHAT do we do?

Mission: Build a scalable network of "in situ" teams committed to peace-building in Cities of Peace around the world.

HOW do we achieve our vision?

Goal: To certify and recommend thousands of self-organized municipalities as Cities of Peace in order to put in motion a tipping force for global peace.

Keep the Momentum. Embrace the Vision.
Join the *Friends of International Cities of Peace!*

Contribute to a time-tested peace initiative that has delivered success. This is a practical way for YOU to achieve YOUR dream of Global Peace.
